Berks

11<sup>th</sup> January 2012

Dear John

A quick note of thanks, to you and all the guys who worked on our contract, and a special thanks to "Paddy" and Gary, for a job well done.

Not only was the job well executed in a very confined environment, but they managed to stay relaxed with me looking over their shoulders at every end and turn

In addition to performing an excellent job they managed to keep the neighbours happy. As far as the quality of work goes the highest compliment came for the steel erectors who commented that they had never seen concrete as close to "plan dimensions" as was the case with our job.

You will all receive an invitation to the "Grand Opening", whenever that is, as without the effort of all the staff at JGB I would not be looking forward to a very interesting new home.

Regards

Malcolm Gregory
